OVERVIEW

Which type of CCTV camera should I choose?

QUICK ANSWER

Choose a dome camera for indoor and discreet coverage, a bullet camera for long-range outdoor views, a turret camera for fast installation and reduced IR glare, and a PTZ camera when one device must pan, tilt and zoom across a large area.

KEY FEATURES

2MP to 4K resolution

Higher resolution keeps faces and plates readable at distance.

Colour night vision

Low-light sensors and warm LEDs keep footage in full colour after dark.

True WDR

Balances bright doorways and dark interiors in the same frame.

IP66 / IP67 weatherproofing

Sealed housings for Malaysia's heat, humidity and monsoon rain.

H.265+ compression

Cuts storage and bandwidth so you keep more days of footage.

Microphone & microSD

Optional audio and local backup storage on selected models.

SPECIFICATIONS

Camera range at a glance

Type	Resolution	Lens options	Night vision	Placement
Dome	2MP - 8MP	2.8 / 4 mm / varifocal	IR / colour [XX m]	Lobbies, shops, ceilings

PTZ	2MP - 4K	[XX x] optical zoom	IR [XX m]	Car parks, yards

Indicative information. Final model selection follows your free site survey. Specifications vary by brand and model.

FREQUENTLY ASKED QUESTIONS

Is 4K always better than 2MP?

Not always. 4K adds detail at distance but needs more storage. We size resolution to your viewing distance.

Do cameras work well at night?

Yes. Colour night-vision models keep colour; infrared is the fallback in complete darkness.

Are outdoor cameras safe in heavy rain?

Our outdoor cameras are rated IP66/IP67 and are sealed properly during installation.
